- FIFC BAGS TYPE A,B, C,Mesh Bag, Ventilated Bag, Pallet Bag, Sling Bag & Conductive & Ventilaed FIBC Bags

Our Products

PP WOVEN BAGS

- Lightweight • High Breaking Strength • Good Resistance to Chemical Corrosion • Excellent Non-Toxic Behaviour • Good Electrical Insulation • Very Low-Cost Bags • Life of the product Advantages: • Reusable and Highly Durable • Resistant Against Weather • Easily Store Chemicals • Water & Dust Proof • Cost-Effective Application: • Packaging Industries • Cement & Chemical Industries • Fertilizer & Food Grains Industries • Sugar & Salt • Construction & Mining Industries • Building Material Industries • Fruits & Vegetables • Textile Industry

It is customized products as per customer requirement we can manufacturer the various type of bags.

LENO MESH BAGS

- Highly economical compared to traditional jute bags • Ventilation process helps the material to stay durable for a longer time • Available in variety of attractive colors combinations • Drawstring at the top helps in the handling of the filled bag • Customization according to client's requirements possible • Bottom stitched and top hemmed with greater stacking strength • Fine finish, water-proof and long lasting Advantages • It is highly moisture resistant • Zero toxicity • Available in various colors & size • Light in weight • Highly flexible Application • Firewood logs and Kindling • Fruits and Vegetables • Flowers • Animal Feed • Shell Fish •

Many other varieties of non-durable products Specification It is customized products as per customer request .

Our Products

BOPP BAGS

BOPP laminated PP woven bags are widely used in Food Packaging for Pets/Animals or Humans. With the latest 10-color Rotogravure printing machine and state-of-the-art machinery for bag production, we are able to meet the needs of our customers.

We make Circular and Back seams, single side or both sides laminated, and different closures (Easy-Open, Double stitch, Ultrasonic Hemmed). Our in-house design team is capable of matching the concept & art customer is looking for. We can also offer Paper poly bags customised as per customer demands .

BLOCK BOTTOM BAGS & AD STAR VALVE BAGS

We can offer Ad Star valve Bags made on high speed fully automated Ad-Star/Block bottom bags making machines from Starlinger, Austria. These bags are produced in different sizes and can be Open Mouth as well as with a valve. Block bottom valve bags are used in the flour and cement industries. The valve helps with easy filling through Nozzles. Ad-Star bags are now making their way into the rice packaging industry as well. These can also be made in different styles, i.e., Circular or Back seam. PE or Paper liners inside these bags can also be provided. We can customise as per customer needs .

Many other varieties of non-durable products Specification It is customized products as per customer request .

Our Products

GEOTEXTILE & GEO-BAGS

Reinforcement: Provide structural support to soils, enhancing load-bearing capacity | Filtration: Allow water to pass through while preventing soil particles from washing away | Separation: Prevent the mixing of different soil layers, maintaining their distinct properties | Drainage: Facilitate water drainage, reducing hydrostatic pressure and preventing soil saturation | Permeability: Available in various permeability levels to suit different applications | Chemical Resistance: Often resistant to chemical degradation, ensuring long-lasting performance | UV Resistance: Designed to withstand exposure to ultraviolet (UV) radiation | Flexibility: Can conform to the shape of the terrain, making them suitable for irregular surfaces | Granular Fill: Geo bags are filled with granular materials, which are readily available and cost-effective | Strength: Both geotextiles and geo bags offer high tensile strength and durability.

Our Products

PP MULTIFILAMENT YARN

1. PP MULTIFILAMENT YARN- denier range of 400 to 5000 DN in Flat, Twisted as well as intermingled forms.
2. WEBBINGS- width ranging from 10 mm to 100 mm, we can offer high quality webbings/ narrow woven fabrics from Polypropylene Multifilament Yarn, Polyester Tex and HT IDY Polyester yarns.
3. INDUSTRIAL THREADS- our range includes PP Threads and HT Polyester Threads in 2 PLY as well as 3 PLY. We sell these in Y CONES (1000/2000 meters) as well as JUMBO CONES.
Most running products in PP threads are 500/2 PLY, 600/2 PLY, 840/2 PLY, 1000/2 PLY, and 1200/3 PLY.
Most running products in high tenacity Polyester threads are 750/2 PLY, 1000/2 PLY.
4. KNIT BRAIDED ROPES- diameter ranges from 5 mm to 10 mm in braided ropes

Our Products

SHOPPING BAGS

- We can offer a wide range of shopping bags made from PP woven , Nonwoven , laminated , un-laminated , customised as per customer needs.
- PP / PET Non- woven Bag | PE / PP Woven Bag |Nylon Bag / Polyester Bag
